

LIST OF TABLES

TABLE	TITLE	PAGE
I	Selection of test and criterion measures	48
II	Interclass correlation for establishing test retest reliability	49
III	Analysis of covariance on speed of different groups	64
III(a)	Scheffe's post hoc test mean differences on speed among three groups	66
IV	Analysis of covariance on flexibility of different groups	68
IV(a)	Scheffe's post hoc test mean differences on flexibility among three groups	70
V	Analysis of covariance on muscular endurance of different groups	72
V(a)	Scheffe's post hoc test mean differences on muscular endurance among three groups	74
VI	Analysis of covariance on agility of different groups	76
VI(a)	Scheffe's post hoc test mean differences on agility among three groups	78
VII	Analysis of covariance on cardio respiratory endurance of different groups	80
VII(a)	Scheffe's post hoc test mean differences on cardio respiratory endurance among three groups	82
VIII	Analysis of covariance on leg explosive power of different groups	84
VIII(a)	Scheffe's post hoc test mean differences on leg explosive power among three groups	86
IX	Analysis of covariance on speed endurance of different groups	88
IX(a)	Scheffe's post hoc test mean differences on speed endurance among three groups	90
